## ESSENTIAL UPDATES ON KEY BOOKS IN THE RAINBOW SUITE

This year's book-based sessions will bring you up to speed on critical updates that you need to keep abreast of. These are the sessions you should look out for:

### Yellow Book

We're well and truly in the homestretch now for the much anticipated release of the new Yellow Book! FIDIC's update of the 1999 Yellow Book edition has now been distributed to selected distinguished construction and legal professionals for their 'friendly review' and constructive comments. Siobhan Fahey (pictured) and Aisha Nadar, lift the veil on the proposed changes that may appear in the final draft when it is published.

### Silver Book

The annual session dealing with FIDIC Design-Build Procurement alternatives will discuss the latest developments and the special features of the EPC/Turnkey Contract (Silver Book). How are the possibilities for the contractor to claim extensions of time and additional payment more limited than under traditional contracts? Explore these and many other crucial questions with our panel of experts including Chris Fellowes (pictured) and Jonathan Hosie of Mayer Brown.

### White Book

FIDIC Contracts Committee members Mike Roberts (pictured) and Vincent Leloup will guide you through all the key clauses of the new Client/Consultant Model Services Agreement. In addition to a full update on the new features of the FIDIC White Book you will also understand how to effectively use the White Book to appoint the lead design consultant, the Engineer/Employer's representative under a FIDIC contract, the risks arising from innovation, and much more besides.

### Gold & Bronze Books

This session, led by Dr Sebastian Hök (pictured) and featuring outstanding contributions from Jacqueline Masterson of Irish Water and Michael Mortimer-Hawkins, who drafted the Gold Book, will emphasise the pros & cons of this form of contract with regards to this special procurement route, risk allocation and the management of claims and disputes. You'll also get to hear about the increasing demand in the industry for the Operate-Design-Build route (Bronze Book) and FIDIC's timeline for the publication of a test edition.

### Harmonised Red Book

FIDIC Senior Advisor, Aisha Nadar (pictured) will be joined on stage by Evgeny Sminov of the European Development Bank and Vassilis Christakis of the Black Sea Trade & Development Bank to debate the comparative advantages of this form of contract by exploring cost-cutting issues such as procurement, sustainability, value for money, and much more besides. All speakers will be happy to take your questions.
