[Unlsh Hack App Data Earth Error Codes](#)

The screenshot shows the WinHex application interface. The main window displays the hex editor for 'SPP3.bin'. The left pane shows the file's metadata, including its size (114,688 bytes), creation time (02/12/2015 19:34:52), and last write time (02/12/2015 19:34:52). The main pane shows a hex dump with corresponding ASCII characters. A comparison window titled 'Report.txt No...' is open on the right, showing a search for differences between two files. The search results indicate a difference of 6,667 bytes, with a list of found offsets and their corresponding byte values in hexadecimal.
